NEW ENHANCED SECURITY FOR ONLINE LOGIN

February 14, 2017

The Dollar General 401(k) Plan (the Plan) puts the highest priority on keeping access to your online account convenient, simple and safe. That’s why we’re excited to introduce new security standards that heighten protection while they streamline your login process—even if you forget your password.

What’s changing?
Once you’ve updated your login, the new process will enable you to take advantage of the following changes to your login experience:
• No more security questions (or answers) to remember
• Immediate password reset sent by text or email
• Stronger, eight-character password you create from a wider set of options

How do I make the change?
When you log into your account for the first time (after February 14, 2017) you’ll be prompted to create a new password and recovery profile. It will only take a few minutes to make your new access fast, easy and more secure than ever.

Simply click Register Now, and follow the instructions. If you have previously registered, but forgotten your username or password, select the appropriate link and follow the instructions.

Keep in mind the Dollar General 401(k) Information Line requires an alpha/numeric PIN, while you will use a Password for the Plan website. If you’ve lost or misplaced your PIN/Password, call the Information Line and request a PIN/Password reminder or hold for a Customer Service Associate.

STATEMENT E-DELIVERY

If you would prefer to receive a paper copy of your most recent quarterly statement, you may do so at any time and for no additional cost by calling the Dollar General 401(k) Information Line Toll Free at 1-844-299-8692.
